Section4 : First Aid Measures

Inhalation :

Remove from exposure to fresh air and rinse mouth with water. Seek medical advice. Skin Contact :

Wash thoroughly with soapy water.

Eye Contact :

Flush with a large amount of water until particle is removed. Seek medical advice. Ingestion :

Drink several glasses of water to dilute ingested toner. Seek medical advice.

Immediate Medical Attention :

Immediate medical attention is not required.

Section5 : Fire Fighting Measures

Protection of Firefighters :	
Wear gloves, glasses, a mask if necessar	у.

Section6 : Accidental Release Measures

Personal Precautions :

Do not breathe in dust.

Environment Precautions :

Do not flush into sewers or watercourses.

Methods for Cleaning Up :

Fine powder may form explosive dust-air mixture.

Confirm there is no source of fire and if there is a source, remove it. Sweep up spilled powder slowly and clean remainder with wet cloth. If a vacuum cleaner is used, a dust explosion-proof type must be chosen.

Section7 : Handling and Storage

Handling :

Acute Oral Toxicity (LD50) :
5000 or over [mg/kg] (Rat)
Acute Dermal Toxicity:
Not available
Acute Inhalation Toxicity:
Not applicable (Based on other Ricoh products test results of similar ingredients.)
Local effects
Acute Skin Irritation(PII) :
1.0 or below (Rabbit) (Based on other Ricoh products test results of similar ingredients.)
Acute Eye Irritation :
Non-irritant (Rabbit) (Based on other Ricoh products test results of similar ingredients.)
Sensitization
Acute Allergenic Effects :
Non-skinsensitive (Mouse) (Based on other Ricoh products test results of similar ingredients.)
Specific Effects
Carcinogenicity :
Titanium dioxide contained in this product are classified to Group 2B of IARC as the result of inhalation test in use of rat.
But oral/skin test does not show carcinogenicity. In the animal experiment with very high concentration of titanium dioxide (excessive burden of rat's
lungs clearance mechanism (overload phenomenon)), the rat alone showed lung tumor. Under a
normal use practice, the concentration should be far lower than the above; and it is assumed that
there is no such use.
Also, relation between respiratory disease and work exposure of titanium dioxide is not observed with
epidemiological survey.
Mutagenicity : Negative (Ames test)
Reproduction Toxicity : Does not contain substances listed as hazardous to reproductive health.
Teratogenic : Not available.
